This also includes any equipment, computer facilities, or online services used in accessing, storing, transmitting or retrieving electronic communications. Apps and services are software (i.e., computer programs) that support the interaction of personal communication devices (as defined in Bylaw 0100, above) over a network, or client-server applications in which the user interface runs in a web browser. Apps and services are used to communicate/transfer information/data that allow students to perform actions/tasks that assist them in attaining educational achievement goals/objectives, enable staff to monitor and assess their students' progress, and allow staff to perform other tasks related to their employment. Apps/web services also are used to facilitate communication to, from and among and between, staff, students, parents, Board members and /or other stakeholders and members of the community.

Although the grandparent is authorized to provide consent in all school-related matters and to obtain from the school district educational and behavioral information about the student, the power of attorney does not preclude the parent, guardian or custodian of the child from having access to all school records pertinent to the child.

Likewise, although the grandparent is authorized to provide consent in all school-related matters and to discuss with the school district the student's educational progress, the caretaker authorization affidavit does not preclude the parent, guardian or custodian of the child from having access to all school records pertinent to the child.
